### Support for Bond Issue Sought Here

Representatives of civic, social and fraternal organizations should be sounded out on support for a proposed \$4,000,000 bond issue for park acquisition and development.

That was the consensus following a joint meeting between the City Council and the Park and Recreation Commission.

The city officials, while expressing general agreement to give the bond issue a third try, announced that all the items in the expansion program should be spelled out, and that as broad a public support as possible be solicited.

They did agree that the bond issue should not be submitted during the municipal election next April, but felt a special vote should be called. No date was set.

During the meeting the Recreation Department was instructed to obtain complete information on possibilities of permitting a private organization develop the Entradero Sump with a golf course. Under the plan voiced at the meeting, the successful bidder would pay the city a percentage of the income and the golf course would revert to the city.
